

Jane Street

Graduate Research Fellowship

The Jane Street Graduate Research Fellowship (GRF)

supports exceptional doctoral students between their 2nd and 6th year of study currently pursuing a PhD in mathematics, computer science, physics, or statistics.

The GRF is specifically for PhD students (not faculty). It is a financial award — one year of tuition and fees plus a \$45,000 stipend — to recognize excellence in a variety of academic fields. This program supports students while they continue their studies at their home institution.

Applications are now open!
